

## Objective:

To identify the potential fish and wildlife effects of dam removal alternatives and no dam removal (no action) alternatives to be analyzed in the Environmental Impact Statement/Environmental Impact Report (EIS/EIR)

### Topics Identified for Analysis

The following topics will be covered in the fish and wildlife analysis.

- » Effects on native anadromous fishes
- » Effects on native and non-native, warm-water species
- » Effects upon commercial, sport, and tribal fisheries
- » Effects on species listed or proposed for listing under the federal Endangered Species Act and California Endangered Species Act
- » Effects on aquatic and terrestrial fish and wildlife

### We Want Your Feedback

1. Are there additional fish and wildlife topics that the EIS/EIR analysis should cover?
2. Can you recommend sources of information that can be used in the EIS/EIR for this topic?
